NYASHA CHIWUTSI
USER EXPERIENCE ENGINEER

WORK HISTORY

SCS Cloud, Senior UX Engineer (Contract)

Jul 2020 - Jan 2021 (Remote)

Creating wireframes, prototypes, and functioning front-end code. As part of a global team, I work with a diverse group of people and share knowledge regarding industry trends and best-practices. I am responsible for visually articulating product initiatives, provide UX perspectives and execute front-end development.

DigsConnect, Front End Developer (Contract)

Mar - Jun 2020, Cape Town

Rebuilding and extending parts of the React app. Responsibilities included: design, UX, mockups and front end development/implementation.

Trust My Travel, UI & UX Designer (Contractor)

Apr 2019 - May 2020, Cape Town

Designing products that focus on creative ways to handle large amounts of data, dashboard user experience, responsive tables & mobile usability.

Kurtosys, Digital Experience Designer

Sep 2017 - Mar 2019, Cape Town

Designed and developed financial data management applications including fund explorers, visual data tools for financial service businesses. Other responsibilities included client liaison and mentoring.

EDUCATION

Bachelor of Science, Computer Science

2013 - 2016, Monash University

Business Analysis and Information Systems Management: The pursuit of designing and developing effective business software solutions as well as managing business systems. Leadership techniques for developing and managing organisational systems were also explored.
